

Notification Of Planned Unavailability

Asset	Revision	Date Published	Event Date	Expected Duration	Level of Unavailability (%)	Comments
Teesside e CATS	1	#####	08/11/2019	~8 days	11	Culzean export not expected to restart until the 14th November, export will be approximately 50% of technical capacity with rates ramping up to technical capacity on the 15th November.
Teesside e CATS	0	#####	08/11/2019	6 days	11	Planned maintenance on Culzean. Five day shutdown, ramp up/down either side of maintenance.
Bacton SEAL	1	#####	08/08/2019	~4 days	3.75	Restrictions on oil export route not expected to be lifted until Sunday then ramp up to previous rates.
Bacton SEAL	0	#####	08/08/2019	1 day	3.75	Due to restrictions from a third-party on the oil export route, gas export from Elgin-Franklin will be restricted. 08-Aug-19 - production restricted to ~50% 09-Aug-19 - production restricted to ~40% with potential to be a total export restriction.
Bacton SEAL	2	#####	01/08/2019	~4 days	10	Gas export on Elgin Franklin has restarted. Flows from Bacton SEAL will commence from 20:00hrs onwards. Ramp up to full production rates may take up to 24-48 hours.
Bacton SEAL	1	#####	01/08/2019		10	Update on previous message, due to rig moves export levels are at approximate 50% and will continue around this rate until the shutdown
Bacton SEAL	0	#####	01/08/2019	2 day	10	Ramp up to normal rates will take approximately 48 hours.
Bacton SEAL	1	#####	01/06/2019	~4 days	10	UPDATE: Offshore production for Elgin Franklin has restarted. Flows from Bacton SEAL will commence from 22:00hrs onwards. Elgin Franklin will take around 18-24 hours to ramp back up to normal rates.
Bacton SEAL	0	#####	01/06/2019	6 days	10	Oil export route unavailable. Restart date / time subject to change. Elgin Franklin will take around 36 hours to ramp back up to previous rates.
NSMP - SF	1	#####	29/05/2019	~3 days	8.5	Update: Production at Laggan Tormore has restarted. Normal rates are expected for gas day 01-Jun-2019.
NSMP - SF	0	#####	29/05/2019	4 days	8.5	Planned shutdown of Laggan Tormore. Ramp down on the 28th with zero export planned for the 29th - 31st May (inclusive) with a ramp up on the 1st June. Export rates for the 28th May and 1st June expected to be around 50%.
NSMP - SF	0	#####	28/02/2019	4 days	3.5	Always maintenance. Ramp up expected on the 7th.

Notification Of Unplanned Unavailability

Asset	Revision	Date Published	Event Date	Expected Duration	Level of Unavailability (%)	Comments
Teesside e CATS	2	#####	30/12/2019	~2 days	2.7	Culzean restarted. Stock levels need to be rebuilt. Normal rates expected for gas day 31-Dec-2019.
Teesside e CATS	1	#####	29/12/2019	~1 day	8.2	Culzean has yet to restart.
Teesside e CATS	0	#####	29/12/2019	1 day	6	Culzean has shutdown. Not expected to restart until this afternoon. Available capacity may reduce further later.
Teesside e CATS	0	#####	23/12/2019	1 day	4.1	Reduced export levels from Culzean.
Teesside e CATS	1	#####	15/12/2019	~2 days	3.2	Culzean restarted overnight and is exporting into CATS pipeline at normal levels. Stock needs to be rebuilt in CATS system. Normal delivery rates at CATS terminal expected for gas day 16-Dec-19.
Teesside e CATS	0	#####	14/12/2019	1 day	5.5	Culzean trip, issues with compressor, restart unknown.
NSMP - SF	2	#####	14/12/2019	~1 day	1.5	Laggan Tormore rates almost back to normal.
NSMP - SF	1	#####	14/12/2019	~1 day	6	Laggan Tormore rates slowly increasing.
NSMP - SF	0	#####	14/12/2019	1 day	8.5	Laggan Tormore tripped overnight, offshore flows have restarted.
Teesside e CATS	3	#####	07/12/2019	~3 days	2.3	Culzean production returning to normal levels throughout the gas-day.
Teesside e CATS	2	#####	06/12/2019	~3 days	6.2	Culzean did restart overnight but production has yet to ramp up to normal levels.
Teesside e CATS	1	#####	05/12/2019	~2 days	8.7	Culzean is expected to restart late tonight.
Teesside e CATS	0	#####	04/12/2019	1 day	5.5	Culzean has tripped. Flows at CATS will start to drop. Investigations ongoing. Restart is currently unknown.
Bacton SEAL	4	#####	07/12/2019	~7 days	0	Elgin Franklin gas export has restarted. Flows at Bacton SEAL will commence from 23:00hrs onwards.
Bacton SEAL	3	#####	05/12/2019	~7 days	12	Estimated restart is now gas-day 7th December.
Bacton SEAL	2	#####	02/12/2019	~6 days	12	Elgin Franklin remains shutdown. Estimated restart is now gas-day 6th December.
Bacton SEAL	1	#####	01/12/2019	~3 days	12	Elgin Franklin is still shutdown. Restart of gas export is not forecast for a minimum of 48 hours. Updates will be provided as they become available.
Bacton SEAL	0	#####	01/12/2019	1 day	12	Elgin Franklin has tripped. Flows at Bacton SEAL will begin to drop.
Teesside e CATS	1	#####	21/11/2019	~1 day	5	Culzean ramp up to normal rates underway.
Teesside e CATS	0	#####	21/11/2019	1 day	6	Production rates have been reduced on Culzean, full rates expected for gas day 22-Nov-2019.
Teesside e CATS	2	#####	31/10/2019	~3 days	10.4	Culzean gas export is currently ramping up. Full production levels expected for midday gas-day 1st November.
Teesside e CATS	1	#####	30/10/2019	~2 days	11.7	Culzean gas export is reduced to ~10% due to issues offshore. Flows not expected to ramp up again until the afternoon of gas-day 31st October.
Teesside e CATS	0	#####	29/10/2019	1 day	11.7	Culzean gas export is reduced to ~10% due to issues offshore. Flows will continue to ramp down over the next 24-hours.
Bacton SEAL	2	#####	25/10/2019	~2 days	11	Elgin Franklin gas export restarted overnight. Flows at Bacton SEAL will commence from 10:00hrs onwards and ramp up throughout the gas-day.
Bacton SEAL	1	#####	25/10/2019	~2 days	11	Elgin Franklin gas export is still offline. Restart is forecast for 17:00hrs today at the earliest.
Bacton SEAL	0	#####	24/10/2019	1 day	11	Elgin Franklin gas export has stopped due to a restriction on the oil export route. Restart time is unknown. Elgin Franklin delivery at SEAL is coming from stock at the moment, it's forecast that Elgin Franklin delivery at SEAL will go to zero at 2200.

Teesside e CATS	3	#####	24/10/2019	~2 days	2.8	Culzean has restarted following trip earlier and is ramping up export rates.
Teesside e CATS	2	#####	23/10/2019	~1 day	6.4	Culzean has restarted following trip earlier and is ramping up export rates.
Teesside e CATS	1	#####	23/10/2019	1 day	3.6	Culzean trip. Correction.
Teesside e CATS	0	#####	23/10/2019	1 day	7.5	Culzean trip.
Teesside e CATS	1	#####	20/10/2019	~1 day	1.9	Culzean field has restarted this morning and is slowly increasing export rates.
Teesside e CATS	0	#####	20/10/2019	1 day	1.9	Culzean field has tripped. Restart time unknown, likely that unavailable capacity will increase.
Bacton SEAL	3	#####	20/10/2019	~2 days	2	Elgin Franklin gas export rates into SEAL are now back to normal.
Bacton SEAL	2	#####	20/10/2019	~2 days	9	Elgin Franklin gas export has restarted and is ramping up. Delivery at SEAL for Elgin Franklin are forecast to start around 0500 at around 2 MCM/M by midday up to around 5 MCM/D, by 1800 at 9 MCM/D and should be close to normal by the start of gas day 21 October 2019.
Bacton SEAL	1	#####	19/10/2019	~2 days	11	Elgin Franklin gas export has stopped due to a restriction on the oil export route. It's not known when the oil route will be available.
Bacton SEAL	0	#####	18/10/2019	1 day	11	Elgin Franklin gas export has stopped due to a restriction on the oil export route. Restart is unknown.
Teesside e CATS	4	#####	14/10/2019	~2 day	3.6	Culzean ramp up continuing.
Teesside e CATS	3	#####	14/10/2019	~2 day	4.7	Culzean ramp up continuing.
Teesside e CATS	2	#####	13/10/2019	~1 day	6.3	Culzean tripped, ramp up underway.
Teesside e CATS	1	#####	13/10/2019	~1 day	5	Culzean did restart following trip, further ramp up on hold at the moment.
Teesside e CATS	0	#####	13/10/2019	1 day	2.9	Reduced rate following Culzean trip. Export rates increasing, should be back to previous levels by gas day 14.
Bacton SEAL	0	#####	08/10/2019	1 day	5	Elgin Franklin tripped overnight, flows at Bacton SEAL at half rates. Production restarted offshore, ramp up will commence over the rest of the gas day.
Teesside e CATS	2	#####	04/10/2019	~2 days	3.6	Culzean has restarted overnight and is ramping up.
Teesside e CATS	1	#####	03/10/2019	~1 day	8.8	
Teesside e CATS	0	#####	03/10/2019	1 day	4	Culzean trip.
Teesside e CATS	4	#####	25/09/2019	~2 days	2.8	Culzean almost back to normal levels.
Teesside e CATS	3	#####	25/09/2019	~2 days	5.6	Culzean is exporting above nomination, stock levels need to be increased before a nomination increase.
Teesside e CATS	2	#####	24/09/2019	~1 day	5.3	Culzean has restarted, ramp up ongoing.
Teesside e CATS	1	#####	24/09/2019	~1 day	8.1	Restart delayed, full export levels not expected until gas day 25 September.
Teesside e CATS	0	#####	24/09/2019	1 day	3.75	Culzean trip.
Teesside e CATS	2	#####	24/09/2019	~2 days	0.5	Culzean restarted overnight. Export levels back to normal.
Teesside e CATS	1	#####	24/09/2019	~2 days	6	Culzean restarted overnight. Stock levels being increased. CATS delivery for Culzean expected to be close to normal for gas day 25-Sep-19.
Teesside e CATS	0	#####	23/09/2019	1 day	8.3	Culzean has tripped.
Teesside e CATS	4	#####	23/09/2019	~4 days	11.6	Culzean has restarted.
Teesside e CATS	3	#####	20/09/2019	~4 days	11.6	Culzean remains shutdown. Investigations ongoing, earliest restart is Sunday 22nd.
Teesside e CATS	2	#####	20/09/2019	~2 days	10.7	Culzean remains shutdown. Investigations ongoing, restart date unknown. Delivery coming from stock.
Teesside e CATS	1	#####	20/09/2019	~2 days	4.2	Culzean remains shutdown. Delivery at CATS coming from stock.
Teesside e CATS	0	#####	19/09/2019	1 day	7.5	Culzean field shutdown. Investigations ongoing.
Teesside e CATS	0	#####	12/09/2019	1 day	8.9	Culzean platform trip - restart expected tonight.
Teesside e CATS	1	#####	08/09/2019	~1 day	3.2	Culzean gas export restarted overnight.
Teesside e CATS	0	#####	07/09/2019	1 day	7.2	Culzean gas export has tripped. Restart unknown.
Teesside e CATS	10	#####	23/08/2019	~7 days	0	Culzean ramp up complete.
Teesside e CATS	9	#####	23/08/2019	~7 days	8.5	Culzean ramp up complete.
Teesside e CATS	8	#####	23/08/2019	~6 days	5.1	Culzean ramp up taking longer than anticipated.
Teesside e CATS	7	#####	23/08/2019	~6 days	6	Culzean has restarted, ramp up of export rates ongoing.
Teesside e CATS	6	#####	22/08/2019	~4days	11.1	Issues preventing gas export. Export to CATS unknown.
Teesside e CATS	5	#####	21/08/2019	~3days	10.4	Issues preventing gas export. Export to CATS unknown.
Teesside e CATS	4	#####	21/08/2019	~3days	8.2	Issues starting Culzean compressor preventing export. Gas delivered from 0600 coming from stock.
Teesside e CATS	3	#####	20/08/2019	~2 days	11.1	Culzean start up delayed until the evening.
Teesside e CATS	2	#####	20/08/2019	~2 days	8.9	Culzean has yet to restart following the trip yesterday. Culzean gas delivered at Teesside is coming from stock. It is planned to restart Culzean this afternoon.
Teesside e CATS	1	#####	20/08/2019	~2 days	6.2	Culzean trip.

Teesside e CATS	0	##### #####	19/08/2019	1 day	6.1	Culzean trip, restart time unknown.
Teesside e CATS	4	##### #####	09/08/2019	~5 days	4.4	Rates expected to stay at current levels until Sunday.
Teesside e CATS	3	##### #####	05/08/2019	~4 days	4.3	Culzean export has restarted. Ramp up will commence over the rest of the gas-day.
Teesside e CATS	2	##### #####	05/08/2019	~3 days	5.6	Culzean export remains at zero.
Teesside e CATS	1	##### #####	05/08/2019	~2 days	5.6	Culzean export remains at zero. Start up process underway.
Teesside e CATS	0	##### #####	05/08/2019	1 day	5.6	Culzean export to CATS has stopped. Gas being delivered at CATS currently coming from linestock.
Teesside e CATS	3	##### #####	03/08/2019	~2 days	5.6	Culzean export has restarted, flows will increase from 16:00hrs onwards.
Teesside e CATS	2	##### #####	03/08/2019	~2 days	8.1	Culzean export has tripped overnight, flows will drop from 06:00hrs onwards. Restart is unknown.
Teesside e CATS	1	##### #####	03/08/2019	~1 day	9.8	Culzean export restarted, flows will ramp up from 18:00hrs onwards.
Teesside e CATS	0	##### #####	03/08/2019	1 day	9.8	Culzean tripped on ramp up - restart time unknown. Rates assumed Culzean had ramped up to full rates.
Teesside e CATS	4	##### #####	02/08/2019	~2 days	8.2	Culzean export has restarted and ramp up under way.
Teesside e CATS	3	##### #####	02/08/2019	~2 days	8.2	Culzean export still offline. Restart process underway. Gas being delivered at CATS coming from stock.
Teesside e CATS	2	##### #####	01/08/2019	~1 day	8.8	Further nomination down from 2000 - flowrates below are effective from 2000.
Teesside e CATS	1	##### #####	01/08/2019	~1 day	7.6	Further nomination down from 0900 - flowrates below are effective from 0900.
Teesside e CATS	0	##### #####	01/08/2019	1 day	4.7	Culzean export stopped overnight. Restart time unknown.
Teesside e CATS	1	##### #####	22/07/2019	~1 day	5	Production restarted overnight.
Teesside e CATS	0	##### #####	22/07/2019	1 day	5	Production stop at Culzean. Too early to have a restart date.
Teesside e CATS	0	##### #####	20/07/2019	1 day	4	Culzean tripped last night investigation complete restart underway.
Bacton SEAL	4	##### #####	08/07/2019	~5 days	7	The issue on the oil export route has been resolved and the restrictions has been lifted. Elgin Franklin will ramp up with normal production expected by the end of gas-day 12th July.
Bacton SEAL	3	##### #####	08/07/2019	~4 days	7	Restriction expected to remain in place until Friday, with ramp up to normal export rates after that.
Bacton SEAL	2	##### #####	08/07/2019	~2 days	7	Gas export from Elgin Franklin has restarted. It continues to be restricted to 3 MCM/D due to an issue on the oil export route.
Bacton SEAL	1	##### #####	08/07/2019	~2 days	10	Gas export from Elgin Franklin has stopped due to a trip. Once export is restarted it will be restricted to 3 MCM/D due to an issue on the oil export route.
Bacton SEAL	0	##### #####	07/07/2019	3 days	7	Gas export on Elgin Franklin is restricted to current levels due to an issue on the oil export route. Current forecast for resumption of normal production is 3 days.
Bacton SEAL	0	##### #####	21/06/2019	2 days	10	Offshore production for Elgin Franklin has stopped. Gas export is currently forecast to restart by 11:00 hrs today. Flows are forecast to return to normal by gas-day 23rd June.
Bacton SEAL	1	##### #####	18/06/2019	~1 day	7	Booster compressor trip on Elgin Franklin. Export expected to resume at midday, with normal delivery later in the day. Delay in restarting compressor.
Bacton SEAL	0	##### #####	18/06/2019	0.5 days	6	Booster compressor trip on Elgin Franklin. Export expected to resume in the next hours. Normal rates by midday. Impact on within day should be small due to the duration of the trip.
Bacton SEAL	1	##### #####	12/05/2019	~1 day	11	Elgin Franklin exports restarted overnight. Flows at the SEAL terminal almost back to normal at the start of gas day 13th May.
Bacton SEAL	0	##### #####	12/05/2019	2 days	11	Flows at Bacton SEAL reducing for Elgin Franklin. Elgin Franklin gas export has stopped. Offshore restart is unknown, updates will be supplied when available.
Bacton SEAL	4	##### #####	17/02/2019	~3 days	3.5	Elgin Franklin issues resolved and export rates increasing. Normal export rates expected for gas day 19-Feb-2019.
Bacton SEAL	3	##### #####	17/02/2019	~2 day	3.5	Export levels from Elgin Franklin to remain around the current level for approximately another 12 hours due to a problem with coolers.
Bacton SEAL	2	##### #####	17/02/2019	~2 day	10	Gas export from Elgin Franklin is forecast to restart from 10am on the 18th. Ramp up will be slow with normal offshore rates not expected until almost the end of the gas day.
Bacton SEAL	1	##### #####	17/02/2019	~2 day	10	Issues with power generation have delayed restart. Restart time currently unknown but not expected until the evening of the 18th.
Bacton SEAL	0	##### #####	17/02/2019	1 day	10	Gas export has stopped from Elgin Franklin.
Bacton SEAL	2	##### #####	23/01/2019	~2 days	11	Elgin Franklin gas export has restarted. Gas Delivery at Bacton SEAL for Elgin Franklin is forecast to slowly start to increase from around 0900 this morning. By midday Elgin Franklin delivery at SEAL is forecast to be around 5 MCM/D with rates continuing to ramp up to normal levels by the end of the gas day.
Bacton SEAL	1	##### #####	23/01/2019	~1 day	11	Elgin Franklin restart process is underway. Gas export from Elgin Franklin is not expected until late tonight. Gas Delivery at Bacton SEAL for Elgin Franklin is not expected until very late on Gas Day 24th January or more likely early Gas Day 25th January.
Bacton SEAL	0	##### #####	23/01/2019	1 day	11	Due to an issue with a compressor, Elgin Franklin gas export is expected to be offline for approximately 24 hours. Stock at SEAL is slowly reducing at the moment with delivery of Elgin Franklin gas at SEAL forecast to stop at midday 23-Jan-2019.
Bacton SEAL	4	##### #####	19/01/2019	~2 days	6	Elgin Franklin export levels ramping up.
Bacton SEAL	3	##### #####	19/01/2019	~1 day	11	Flows for Elgin Franklin at the SEAL terminal have stopped. Flows at SEAL are not forecast to start until 0200 on the 20th January with a slow ramp up to normal levels.
Bacton SEAL	2	##### #####	19/01/2019	~1 day	11	Elgin Franklin gas export has stopped. Flows for Elgin Franklin at the SEAL terminal have stopped. Flows at SEAL are not forecast to start until midnight tonight with a slow ramp up to normal levels.
Bacton SEAL	1	##### #####	19/01/2019	2 days	11	Elgin Franklin gas export has stopped. Issues with a booster compressor are delaying restart. Gas export from Elgin Franklin is not expected until this afternoon followed by a ramp up to normal rates.
Bacton SEAL	0	##### #####	19/01/2019	1 day	5	Elgin Franklin gas export has stopped. Platform has been reset and restart underway (Event End estimated) Offshore export not expected for a few hours yet. Flows at Bacton SEAL starting to reduce for Elgin Franklin. Flow loss estimated at 5 MCM/D by 0400.
