Comments

Maintenance complete, flows will restart from 17: 00 hrs

Delay to start of works. Elgin Franklin production continues to ramp up to normal levels and will not be affected by the maintenance.

In order to conduct essential maintenance at Bacton terminal, the NTS exit point will close to deliveries from 10:00am GD 08/08 The NTS exit point is expected to be available again within 6 hours from closure. EOP delivery rates are not expected to be impacted by this

Alwyn ramp up ongoing.

Alwyn ramp up ongoing.

Alwyn restart in progress following ESD testing. Some gas expected to be produced during 11th October but likely to take 48 hours to get to normal production levels.

Rebuilding stock levels.

Planned maintenance on Alwyn.

Delayed restart, ramp up may take up to 48 hours.

Delayed restart, ramp up may take up to 48 hours.

Delayed restart, ramp up may take up to 48 hours.

Delayed restart, ramp up may take up to 48 hours.

Delayed restart, ramp up may take up to 48 hours.

Delayed restart, ramp up may take up to 48 hours.

Ramp down almost complete for shutdown - current nomination for gas day 17-Aug-2023 is 0.2 MCM/D

Planned maintenance on Alwyn.

Culzean maintenance complete and rates ramping up to normal levels.

Reduced production from Culzean due to well maintenance. Rates are expected to vary.

Reduced production from Culzean due to well maintenance. Rates are expected to vary.

Reduced production from Culzean due to well maintenance. Rates are expected to vary.

Reduced production from Culzean due to well maintenance. Rates are expected to vary.
